SUMMARY

Junior Data Analyst with a B.Sc. in Computer Science & Information Systems and hands-on experience building end-to-end analytics projects: querying and modeling data in SQL Server (T-SQL), transforming data with Power Query, and building interactive Power BI dashboards with custom DAX measures. Delivered 5+ portfolio projects across sales, retail, marketing, education, and healthcare datasets. Looking for a full-time junior data analyst role (on-site in Cairo, hybrid, or remote).

TECHNICAL SKILLS

Databases & Querying: SQL Server (T-SQL), MySQL, Oracle SQL - joins, aggregations, subqueries, views, ERD design

BI & Visualization: Power BI (data modeling, DAX measures, Power Query, custom tooltips, KPI dashboards)

Spreadsheets: Microsoft Excel (Pivot Tables, XLOOKUP/VLOOKUP, dashboards), Google Sheets

Programming: Python (data processing & analysis)

Core: Data cleaning, data modeling, ETL with Power Query, KPI tracking, reporting & documentation

WORK EXPERIENCE

Data Analyst (Hybrid) - Egypt Land for Import & Export Jul 2025 - Sep 2026

- Built multiple Power BI dashboards and SQL queries tracking sales, shipments, and operations KPIs for an import/export business.
- Cleaned and modeled data in Power Query and delivered weekly recurring reports supporting commercial decisions.

Data Analyst (Part-time, Remote) - D-Fluency Jun 2026 - Oct 2026

- Analyzed PostgreSQL data across an education management platform supporting 18 AI-powered endpoints, identifying trends in student, course, and operational performance.
- Built and maintained dashboards and reports monitoring key metrics across courses, students, sales, HR, and finance operations.
- Automated recurring reporting and data-analysis tasks, reducing manual effort in management reporting.

Data Analyst Intern - Data Intelligence Apr 2025 - Jun 2025

- Supported the analytics team with Power BI dashboards, SQL queries, and data cleaning over a 3-month internship.

PROJECTS

University Management & Analytics System SQL Server, T-SQL, ERD

- Designed a relational database for a university management system: full ERD, normalized schema, and T-SQL queries for student, course, and enrollment analytics.
- Modeled 13 normalized tables and delivered a 3-page Power BI report across academics, research, and campus life.

Breadfast Retail Intelligence Dashboard Power BI, DAX, Power Query

- Built a Breadfast-themed retail dashboard on the Superstore sample dataset, tracking sales, product mix, customer trends, and unit economics with DAX.
- On Superstore sample data: analyzed 9,994 orders, $2.30M sales, and $286K profit (12.4% margin).

B-Tech Sales Dashboard Power BI, Power Query

- Built a B.TECH-themed sales dashboard on the Superstore sample dataset, comparing revenue trends, regional and category performance, and year-over-year results.
- On Superstore sample data: analyzed 3,003 orders, $1.57M sales, and $175K profit (11.2% margin).

Fluentive Marketing & Lead Generation Dashboard Power BI, DAX

- Monitored lead conversion, cost per lead (CPL), and campaign ROI using relational data modeling and custom DAX measures.
- Analyzed 267 April leads: 3 converted (1.12%); 49.4% remained in follow-up.

EDUCATION

B.Sc. Computer Science & Information Systems **2021 - 2025**
Al-Shorouk Academy (SHO), Cairo

TRAINING

Data Analysis Diploma (in progress)
Route Academy, Cairo

LANGUAGES

Arabic (native) | English (professional working proficiency)
